Palette knife
Masking tape

Colorful Music By Cheryl Holmberg

Technique:

1. Draw the scalloped edge.
2. Position the stencil and tape it down.
3. Use the EZ Strokes to sponge and/or stipple the stencil until it appears solid. Refer to picture for color placement. It will take 2-3 thin coats. (*Application should not be too thin or it will bleed under the stencil. If it's too thick it will pop off when fired.*)
4. Use the typewriter eraser and cleaning tool to clean up if the color bled.
5. Mix some Midnight Blue with some white French Dimensions to a medium blue color and put in a piping bottle.
6. Outline the 2 lines on the inside edge of scallops and put some dots inside that border.
7. Fill the border with 3 coats of Blue Isle.
8. Apply 3 coats of Fruity Freckles on the scallops.
9. Apply 3 coats of Cara-bein Blue on the outside edge and the feet.
10. Apply 2 coats of clear on the front center up to the French Dimension border and on the back except for feet.
11. Stilt and fire to cone 06.
